ONEWE REACH · 10TH ANNUAL CONFERENCE · WORKSHOP

KAINDLY

Career Architecture in the AI Era

You do not need the whole career mapped out. Start with a purposeful next move.

Leanna Baker Williams, PharmD, MS

OneWe Reach · October 20, 2026

4:15–5:45 p.m. Eastern

Answer out loud

Why are you here?

Why OneWe Reach?

What are you hoping to leave with?

Connection Co
n Connection C
on Connection

YOU DON’T NEED THE WHOLE PICTURE

“Again, you can’t connect the dots looking forward.”

Steve Jobs · Stanford commencement · 2005

Source: Stanford News, “‘You’ve got to find what you love,’ Jobs says,” June 2005 · news.stanford.edu

YOUR NEXT MOVE IS NOT YOUR FINAL MOVE

12.9 jobs

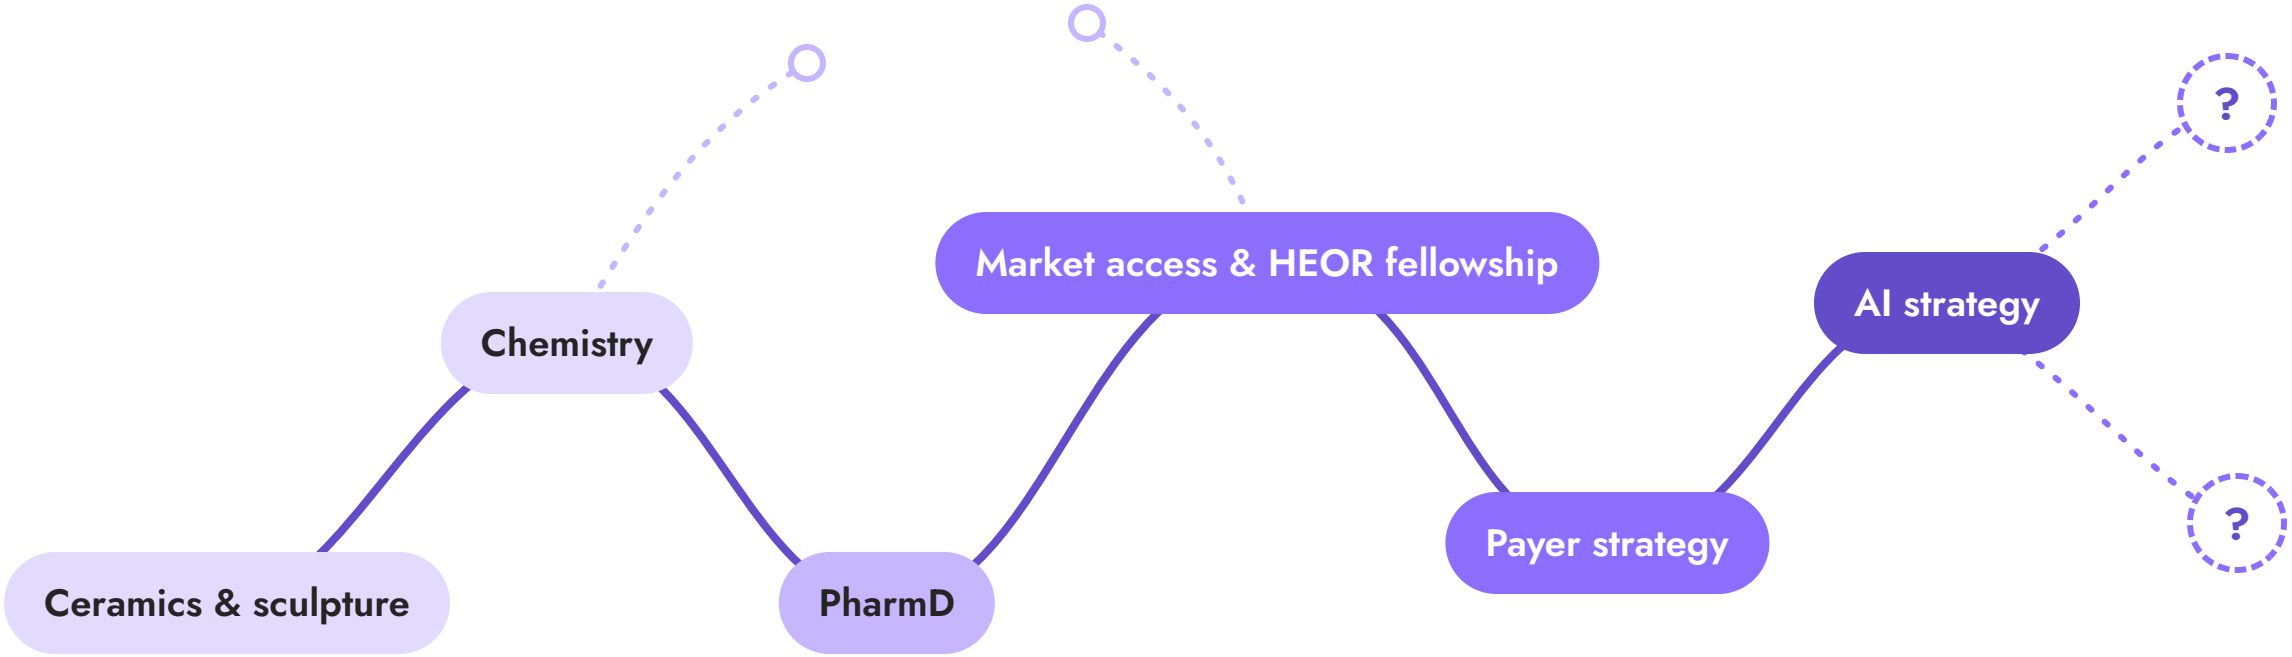

Average held between ages 18 and 58 by Americans born between 1957 and 1964.

Jobs, not career changes.

Source: U.S. Bureau of Labor Statistics, National Longitudinal Survey of Youth 1979 news release, August 26, 2025 · bls.gov

MY STORY

My path wasn't a straight line.

TODAY'S FOCUS

Don't get stuck on what looks right.

Focus on a purposeful next move.

What do you want to be different?

WORKING AGREEMENTS

How we will work

Participate and ask questions.

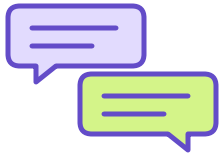

Use an approved AI tool.

Follow your company's rules.

Keep confidential and identifying details out.

Stay in one conversation.

No settings setup needed.

Read, correct and choose for yourself.

PROMPTS & FILL-INS

www.kaindly.ai/OWR

PIN **reunion**

No AI? Paper or a notes app works too.

OUR 90 MINUTES

Three connected activities

1

Understand your context

20 min

→

2

Explore possibilities

15 min

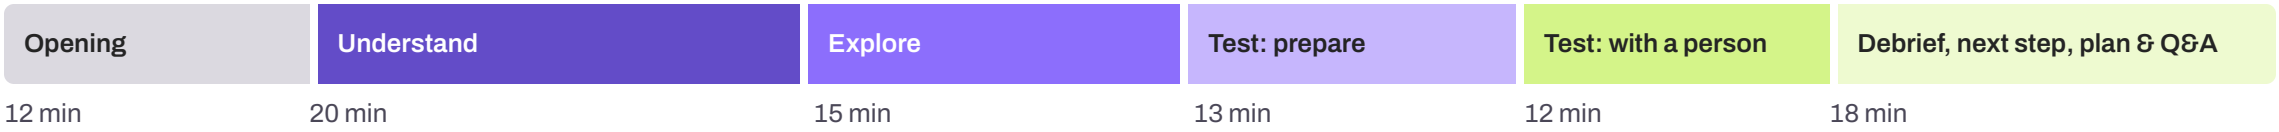

→

3

Test how your experience translates

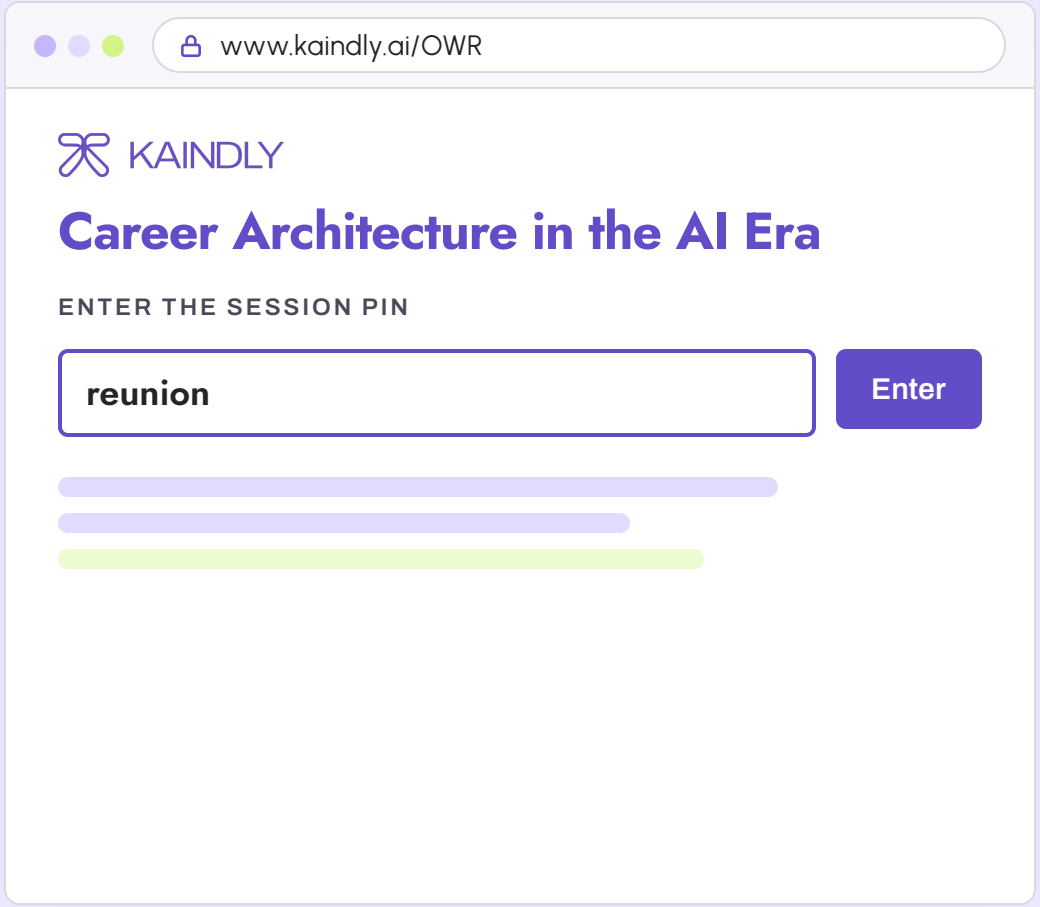

25 min · with AI, then a person

One conversation. Your judgment. A next step you can revisit.

STEP 1

Open this page

www.kaindly.ai/OWR

PIN **reunion**

STEP 2

Open your AI tool

Claude

ChatGPT

Copilot

Gemini

Use what you have.

1

ACTIVITY 1 OF 3 · UNDERSTAND YOUR CONTEXT

Help AI understand you

Your résumé tells part of the story.

ADD

- What shaped your moves
- What you learned
- What you want more or less of
- What needs to change

20 min

ACTIVITY 1 · IN YOUR AI CONVERSATION

8 min

Give the conversation context

1

Add selected experience.

2

Explain what is missing between the lines.

3

Let AI ask up to three questions, one at a time.

4

Ask it to summarize without choosing for you.

No destination required. One useful question is enough if time is short.

Full prompt in your workbook · www.kaindly.ai/OWR

ACTIVITY 1 · READ AND CORRECT

Does this sound like you?

- What is accurate?
- What is missing?
- What needs correcting?

CHECKPOINT

Keep a summary you recognize.

5 min

2

ACTIVITY 2 OF 3 · EXPLORE POSSIBILITIES

Explore without deciding today

THREE POSSIBILITIES

Change within your current role

An adjacent opportunity

A less obvious direction

You are choosing curiosity, not committing to a new career.

15 min

ACTIVITY 2 · COMPARE AND CORRECT

6 min

What fits you?

What could this give me?

What could I contribute?

What trade-offs matter?

What is AI assuming?

ACTIVITY 2 · CAPTURE

Choose a question

3 min

I'm curious about _____ because _____.

Before choosing, I need to learn _____.

3

ACTIVITY 3 OF 3

Test how your experience translates

Two real examples → **Transferable value** → **A 30-second introduction**

- What did you do?
- Who or what did it help?
- What evidence do you actually have?

3 min for two examples

ACTIVITY 3 · DRAFT YOUR INTRODUCTION

4 min draft · 4 min say it aloud

Make it sound like you

1 What I have done

2 What I am exploring

3 What I hope to learn

Specific.
Truthful.
In my own voice.

ACTIVITY 3 · BEYOND THE AI

“AI suggested it” is not evidence.

2 min

Who could help you find out?

PICK YOUR FEEDBACK QUESTION

“Where could you see this experience being useful?”

“What would you need to see more evidence of?”

Your question gives you a starting point.

People help you learn what comes next.

Next: test your introduction and question with a person.

RECIPROCAL PRACTICE

12 min

Try it with a person

PARTNER A

Introduce, ask, listen.

PARTNER B

Reflect, question, offer perspective.

⇄ Then swap.

CAPTURE

- Value they understood
- What was unclear
- Evidence they wanted
- One revision

2 min · explain | 4 min · Partner A | 4 min · Partner B | 2 min · write

DEBRIEF

What changed after feedback?

- What did your listener actually hear?
- What surprised you?
- What will you change or investigate?

Feedback is a first signal, not proof.

4 min

4 MIN · KAINDLY CONNECTIONS

Make the next connection purposeful

Who could help me learn more?

What specific question will I bring?

What can I offer in return?

Choose one next conversation.

Optional demo uses fictional profiles, simulated matching and simulated emails.

LOOK AT WHAT YOU BUILT

A draft, not a prediction.

You have started your Impact Ladder

RUNG	WHAT IT MEANS	YOU ALREADY HAVE
Impact	What I want my next chapter to make possible	The change you hope to explore
Outcomes	What change or learning would show progress	Clearer understanding from feedback
Outputs	The work or evidence I will create	Your truthful introduction
Activities	My next action within my control	Asking and revising

BEFORE Q&A

4 min

Save it and give yourself a cue

7 days

One action.

30 days

One review.

YOUR REMINDER

Revisit my purposeful next move.

What did I try?

What did I learn?

What changes next?

Save the plan somewhere you can find it.

5 MIN · Q&A AND CLOSE

KAINDLY

Your next move does not have to be your final move.

What is one purposeful step you will take?

Questions?
